

# SIMPLE TO USE – EASY OPERATION

Tropicover Outdoor LifeStyle Umbrellas are designed to be used in every situation, they can be bolted to concrete or timber deck, sunk into the ground, and optionally you can place the umbrella on a mobile with castors and brakes base. A simple winder handle with an internal winch mechanism and child safety system enables the umbrella to be fully opened until the Dual-Canopy is taut and can be closed easily, it folds into a compact vertical format and can be easily lifted from the base and stored away; to protect your umbrella when not in use a special Wrap-Bag is available as an option.
